PROFESSIONAL SUMMARY

Backend-focused software engineer with hands-on experience in Python, FastAPI, and LangChain, with a focus on building production-ready AI-powered backend systems. Skilled in scalable API design, Redis-based task queuing, and PostgreSQL, with practical exposure to GenAI integrations using Azure OpenAI and cloud-based AI services.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering

Velammal Engineering College

Chennai, TN

Sept 2023 – Pursuing

CGPA: 8.13/10 (upto 5th semester)

Senior Secondary School, (Computer Science)

SKNSPMC Vivekananda Vidyalaya Junior College

Chennai, TN

Mar 2021 – Feb 2023

Grade: 83.8%

INTERNSHIP EXPERIENCE

Hexaware Technologies | SDE Intern (Backend)

Feb 2026 – Jul 2026

Tech Stack: Python, FastAPI, LangChain, Azure OpenAI, Redis, PostgreSQL

- Designed a **CEFR grading engine** to classify learners into proficiency levels via adaptive question logic.
- Built **AI-powered speaking assessment evaluation** using LangChain and Azure OpenAI for automated scoring.
- Engineered **end-to-end pre-assessment workflows** from session initiation to result generation.
- Optimised assessment throughput via **Redis-based task queuing** to handle concurrent sessions at scale.

Infotak Solutions | Full Stack Developer Intern

Dec 2025 - Jan 2026

Tech Stack: React, Express.js, PostgreSQL, Docker

- Developed and maintained a **lift monitoring dashboard** used to track and manage elevator operational data.
- Built frontend components using **React** and implemented backend **APIs using Express.js**.
- Designed and integrated **PostgreSQL database workflows** for storing and retrieving monitoring data.
- Containerized application services** using **Docker** to streamline deployment and environment consistency.

J7 Technology Solutions Pvt. Ltd | Software Development Intern

Aug 2025 - Nov 2025

Tech Stack: Express.js (TS), Next.js, PostgreSQL, AWS Amplify, AWS RDS

- Built backend APIs in **Express.js (TS)** for student, teacher, HR, and academic modules.
- Developed production features like **report storage**, teacher workflows, timetables, and CRUD ops.
- Implemented secure auth with **hashing, encryption, sessions**, and **Next.js Context API**.
- Collaborated in a multi-dev environment with **GitHub PRs, reviews, & staged releases**.

TECHNICAL SKILLS

Programming Languages	Python	SQL	JavaScript	TypeScript	Java	C++	C
Backend & APIs	FastAPI	Flask	Express.js	REST APIs			
Frontend	React.js	HTML5	CSS3	Tailwind CSS	Vite		
Databases	PostgreSQL	MySQL	MongoDB	SQLite			
AI/GenAI	LangChain	Azure OpenAI	Gemini API	LangSmith	Prompt Engineering		
Cloud/DevOps	Docker	AWS	Linux	Git	CI/CD		
Tools	Postman	VS Code	GitHub	Redis	Alembic	Ruff	

LEADERSHIP & ACTIVITIES

Tech Head - Youth Red Cross (YRC), Velammal Engineering College

Present

- Led the **technical wing** of the Youth Red Cross VEC, coordinating **30+ volunteers** from all batches.
- Planned and supervised **multiple technology initiatives** supporting community service and social impact programs.
- Conducted **technical workshops** and **mentoring sessions** for student volunteers.
- Managed **project planning, task allocation, and execution** across student development teams.
- **Mentored junior volunteers** and fostered technical collaboration across cross-functional student teams.

PROJECTS

LSRW SKILL ASSESSMENT APP | HTML, CSS, JS, Python, Flask, MongoDB | Live

Nov 2023

- **Built** a full-stack web app for online **English assessments** with **automated scoring** and **analytics dashboard**.
- **Designed RESTful APIs** using **Flask** and **MongoDB** to manage student submissions and report generation.
- **Integrated email automation** to deliver **real-time performance reports** to users.

HARVESTHUB (Google AI Solution Challenge) | Flutter, Dart, Firebase, Gemini AI

Mar 2025

- Integrated **Google Gemini API** to deliver multilingual AI-powered **agricultural assistance**, including weather-based crop suggestions and **contextual user guidance**.
- Designed **backend workflows** to safely consume and process AI responses for mobile application use.

LIFE CONNECT | React, Python, Flask, MySQL

Collaborative | YRC Team

- Developed an **admin-based system** to match **blood donors** with live **donation requests**.
- **Implemented secure login, session handling, and CSV-based data import** features.
- **Collaborated** in a student team to **deploy the app** and **optimize backend workflows**.

ACHIEVEMENTS | CERTIFICATIONS

Achievements

- **1st Place** – QR Debugging Event (Namma VEC 2026)
- **2nd Place** – App Development (Namma VEC 2025)
- **1st Place** – Blockathon'24, Velammal Engg College
- **2nd Prize** – TECHNOVIZ'22, SRMIST Ramapuram
- **Top 105 (Prototype)** – Google AI Solution Challenge' 25
- **Rank 217/1349** – Hackerrank Orchestrate May 2026

Course Work

- **Hackerrank Certified** – Python Developer
- **Postman API Fundamentals** – Student Expert
- **NPTEL Deep Learning**
- **NPTEL Natural Language Processing**
- **NPTEL Programming & Data Structures Using Python**
